PROFESSIONAL EXPERIENCE

CARLAC CAPITAL – spanish M&A boutique

Madrid, ES

Investment Banking Analyst

Jan 2020 - Apr 2020

- Collaborated with a team of 3 analysts and 1 manager to build reports on short notice for client meetings. Ensured financial statements were clearly understandable and translated reports into English.
- Carried out market research on 120 SMEs by automating financial data ingestion through data provider APIs and web scraping public data, saving about 30 minutes of work per company analyzed.

BBVA ASSET MANAGEMENT

Madrid, ES

Global Investment Process Analyst

Aug 2017 - Jul 2018

- Proposed a solution to new MIFID II regulatory requirements: implemented a new process to track research received by the company. Automated the generation of reports for traders and management.
- Prepared weekly presentations summarizing fund performance data and presented to the CIO, portfolio managers and institutional clients.
- Mentored a junior team member; introduced him to department processes and ensured he integrated into the team.
- Taught 2 team members to program in Python, enabling them to manage processes I had set up.

RUSSULA – multinational engineering company

A Coruña, ES

Finance Summer Intern

Jun 2016 - Aug 2016

- Overhauled data storage system: migrated inefficient Excel files to MySQL database, greatly speeding up daily operations.

BBVA CORPORATE & INVESTMENT BANKING

London, UK

Global Transaction Banking Summer Intern

Jun 2015 - Aug 2015

- Prepared presentations summarizing client data on ~30 clients for an incoming division head. Processed and summarized the data with Excel and imported it to PowerPoint.
